

Leawo Unveils PhotoIns Photo Enhancer – Automatically Improve Photos in Batch by AI

Leawo officially launched PhotoIns 1.0.0.0, an AI photo Enhancer which is able to automatically improve photos in batch by Artificial Intelligence, such as enlarging eyes, enhancing face, correcting lens, etc.

Shenzhen, Nov 13, 2020 ([Issuewire.com](https://www.issuewire.com)) - Leawo Software, a world-class multimedia solution developer and provider, just announced the availability of its new [PhotoIns](#) 1.0.0.0, an AI photo Enhancer which is able to automatically improve quality of a batch of photos in one click with Artificial Intelligence Enhancer Technology, including enlarging eyes on portrait enhancer, correcting photo exposure and contrast as well as boosting photo color and lightning. What's more, it is able to process RAW and JPG images.

What Does PhotoIns Do?

Advanced Portrait Photos AI Enhancer

Leawo PhotoIns is a powerful AI portrait enhancer that beautifies portrait photos instantly. Users are allowed to do portrait photo enhancement like retouching skin, removing freckles, enhancing eyes, adjusting lighting and more, with only a few clicks.

Fix photo Exposure Issues

Leawo PhotoIns is able to automatically fix photos exposed excessively. It detects areas that were out of exposure range and adjust the brightness, making highlights and shadows of photos more comfortable and acceptable.

Perfect Photo Color Enhancer

Leawo PhotoIns is also an AI photo color enhancer that is able to optimize photo colors and perfect photo tints. It provides users with the right tone and color balance to perfect photo tints. After enhancement, the photos will show what they supposed to be in nature.

Make Photos Clear with Smart Dehaze

Leawo PhotoIns provides smart dehaze feature to remove the haziness and foggiess from photos. It enhances photos by bringing them more details, dynamic saturation and contrast, giving the photos a clear and striking look

Boost Photo Lightning and Color Quality

PhotoIns features AI photo enhancement, is able to control the colors and lightning of photos. It automatically adjust accurate and realistic lightning and color temperature for photos with incorrect white balance.

Optimize Photo Contrast

The AI photo enhancer is able to optimize photo contrast by sharpening the edges and fine-tuning the contrast settings of the photo, delivering a clear and natural visual effect.

Other Bonus Features

- Support processing RAW images such as correcting distortion, chromatic aberration and vignetting.
- Enhance compressed JPG images by reducing noise and sharpen details.
- AI sky enhancer which creates beautifully enhanced sky for landscape photos.
- Vitalize the foliage of photos by optimizing the saturation, contrast and edges, making improved photos with more vibrant colors and lightning.
- Process multiple photos as a batch in one click.

Price & Availability

Leawo PhotoIn is immediately available for free download. A 1-year license costs US\$9.95 and a lifetime license costs US\$19.95.

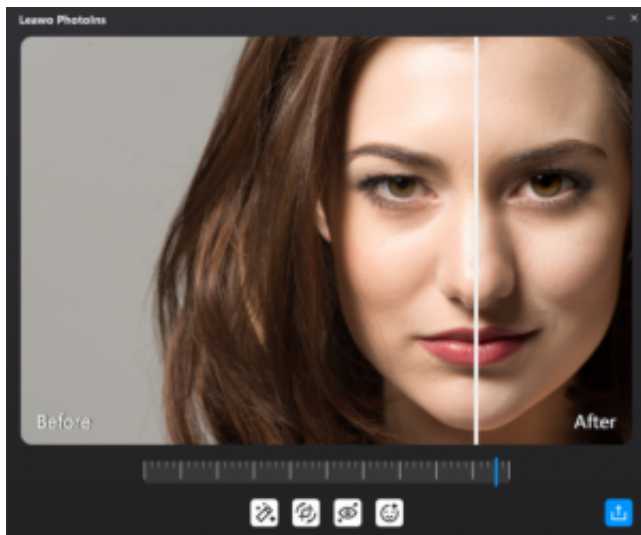

Differences between Registered & Free trial

- Free trial can only process one photo at a time.
- A “PhotoIn” watermark will be added on Free trial
- Free trial only features AI enhancer and portrait enhancer
- Ads will be inserted on free trail
