

Match, Chat, Playdate on Sparkle Pandas

Hong Kong, Nov 14, 2020 ([Issuewire.com](https://www.issuewire.com)) - Sparkle Pandas is a new platform where you can match, chat and playdate with one of the 100s of companions from across the world.

The platform allows users to search through profiles of a variety of companions who love playing games, dressing up in Cosplay or simply Just Chatting and either meet with them now or arrange a playdate for later.

The focus of the site is to enable cam2cam chatting so that you can see with whom you are spending time with in private chat rooms.

Many other sites focus on audio-only connection leaving users wondering if they're really talking to the same person that they see in the photos. No more concerns as to whether you're really talking to that hot girl or if it's just some sad loner guy sat in his momma's basement in suburban Detroit who used his unemployment money to buy voice changer software!!! Now you can see who you are chatting with!

We want to make your time online FUN! So stop going solo and come and find your perfect online companion.

The pre-launch campaign has been incredibly successful with over 100k viewers tuning in to view the initial content and meet some of the Pandas.

The concept is simple, access the website, search for a companion and then either play with them now or arrange a playdate for later. With 100s of Pandas online, there's a Panda for everyone - whether it's to play Fortnite Duos together, dress up in Cosplay, or build new worlds together in Minecraft. What they all have in common - is that they are here to make gaming fun.

Erika Yao, founder of Sparkle Pandas: "I'm passionate about connecting people and having fun! Don't let time, distance, or pandemic stop us."

So - embracing the company's slogan - "what are you waiting for! Come Play With Me!" <https://sparklepandas.com/>
