

## PCEX Member Launches Android App for Indian Crypto Traders!

The banner features a dark blue background. On the left, the PCEX logo is at the top, followed by the text 'Get the PCEX Member App on Play store'. Below this, it says 'PCEX Member App is now available on all android devices' and includes the 'GET IT ON Google Play' logo. On the right, a smartphone is shown displaying the app's interface, which includes a 'Market Quantity and Price' section with a value of '₹5,100,000' and a list of trading pairs with their respective prices and volume.

**Gurgaon, Nov 3, 2020 ([Issuewire.com](https://www.issuewire.com))** - The leading cryptocurrency exchange in India, PCEX Member has announced the launch of its Android app exclusively for Indian traders. Now, users do not have to be in a hurry to reach home or office to access the crypto market. With the App, crypto traders can buy, sell, or trade all mainstream [cryptocurrencies in the INR](#), C2USD, USDT, and USD market in less than a minute.

Apart from spot trading, crypto traders can also access the futures market and book profits while enjoying leverage up to 30x. “The introduction of the PCEX Member will surely remove the complexities that traders usually face while trading cryptocurrencies and will give traders a user-friendly way to buy, sell or trade cryptocurrencies in both spot and futures market at the lowest fees in the market”, said Mr. Sandeep Phogat, CEO & Founder of PCEX Member.

***“In India, most of the users do not understand cryptocurrencies. Giving them an easy to use & understand platform is essential to boost the adoption of cryptocurrencies as an investment option.”, he further said.***

PCEX Member app is designed for traders of all levels. From beginners to seasoned traders, anyone can use our app to buy, sell, or trade cryptocurrencies in different markets seamlessly. Designed and developed using the best tools and techniques available, our trading app comes with a lot of features that will help you trade like a pro on the go.

Some of the features include but not limited to just instant price alerts, advanced price & volume charts, easy order placement, smart market swaps, and separate wallets. The platform is very easy to understand. New users can easily create an account and start trading in all mainstream cryptocurrencies by simply completing their KYC process. Moreover, they can deposit INR into their wallet using varying modes of payment offered by the platform.

The users can also easily swap the market to perform trading either in the spot or futures market. If you

want to take the best benefits of both the market, you can download the app by clicking the given link below.
