

Sourabh Thapa started as the youngest digital marketing trainer is now making digital education affordable in India

Course Inbox to provide affordable Digital Marketing Courses.

New Delhi, Nov 22, 2020 ([Issuewire.com](https://www.issuewire.com)) - In an interview with Mr. [Sourabh Thapa](#), said that rising internet penetration in India is expected to enhance the scope of digital marketing in the coming years after this COVID-19 situation. Along with growing internet penetration, Govt. initiatives such as Digital India are fueling the job prospects in the digital marketing industry. Owing to these developments, the booming digital marketing industry is set to grow further in the coming years

The digital marketing industry presents a huge scope for the employment of youth owing to increased demand. The lack of international-grade platforms for training and education in the digital marketing sphere has created a critical demand-supply gap in the industry. Every day, more and more professionals and entrepreneurs are looking to learn industry-relevant skills, paving way for the growth

of the digital marketing education industry in the country.

According to Mr. Sourabh Thapa, the biggest issue that students face in India is the lack of resources and opportunities. While some of them discontinue their studies due to their monetary issues, others quit as they cannot find quality courses.
