

## TANDM Surf Offers Black Friday Special

TANDM Surf's best-selling Tandem Boogie AIR is available for \$299 for a limited time.

**San Clemente, Nov 24, 2020 ([IssueWire.com](http://IssueWire.com))** - For the first time since its launch, TANDM Surf is offering the Tandem Boogie AIR at a discounted price. The board ordinarily retails for \$459 but from November 24th until November 30th, the board is available for just \$299.

The Tandem Boogie AIR is the company's most popular board and is currently on offer for \$160 off—the price includes shipping within the United States. Available in two different color ways, the Tandem Boogie AIR is an inflatable board that features a performance shape, soft handles, and a built-in action camera mount to capture all of the action. Additionally, each order includes a pump and convenient travel bag. Weighing in at just 14 pounds, the board ships in a 34"x10"x10" box, making it the perfect holiday gift.

"Kids of all ages will love to get a gift that will last a lifetime," says TANDM Surf founder John

Clark. “The Tandem Boogie AIR is designed to last and to create many memories. It rolls up for convenient storage in the travel bag—keep it in the family car for impromptu beach days.”

The Tandem Boogie AIR is a versatile board that can be used solo, in pairs, as a boogie board, as a surfboard, or even in the snow. The board can easily be inflated within minutes and packs down small, making it ideal for traveling or simply heading to your local waterway.

“It’s inflatable, so it’s just a fun board to add to your surfboard quiver or as a way to start surfing waves,” says Clark. “It’s perfect for those small wave days or when the wind picks up and you just want to ride the whitewash.”

Last spring/summer, the Tandem Boogie AIR sold out, so now is the time to order to ensure you’ll have one for the warm, summer months. Order during TANDM Surf’s Black Friday sale and you’re guaranteed to receive it in time for the holidays.
