- **Consultations**

Orion Secure Solutions Pvt. Ltd. has their arm as NH Consulting Group who are famous for their contribution in general and environment sector. They have their highest credibility in managing industrial consultations. Besides these, they have their expertise in other fields of strategic planning like:

- Market research
- Environmental studies
- Resource surveys
- Water resource studies
- Health sector studies
- Infrastructure studies
- Assessment of the environmental impact
- Strategic planning
- Agriculture studies

- **Executive protection**

The highly trained and skilled personnel of [Orion Secure Security](#) have the best knowledge of how to effectively maintain and control an organization's safety and security irrespective of its size. Besides, they are known for providing consistent protection across private as well as public events. They are also proclaimed for their training in crowd management which abides by the latest security norms. They also render few allied services like queue management in ticketing counters and parking management.

Orion Secure Delhi also provides special security services to chief executives, VIPs, or celebrities. They have the team equipped with proper knowledge of close combat skills and firearms usage. Needless to say, every service provided by them is maintained through legal backups.

- **Intelligence Services**

Ascertain Solutions, an arm of **Orion Secure Company** specializes in the branch of delivering solutions for Information Securities, Risk Management, Cyber Forensics, Intelligence Investigation, and Online Reputation Management, globally. This arm of solutions is possessing all the necessary niche requirements that are needed to address the underlying cyber risks and frauds. They also provide industry compliant services of:

- Securing valued information
- Audits
- Testing penetrations
- Security operations
- Digital forensics

- **Facility Management**

Noiro being another arm of [Orion Secure Solutions Pvt. Ltd.](#) are leveraging their services to organizations where they can outsource their assistance. They offer integrated facility management services along with individual and standalone services. The whole dedicated force is divided into regional teams which helps them automate and enhance the service rates. And due to this integration, any crisis can be brought under immediate control.

- **Risk Assessment**

Orion security guards think that their training forms a critical and integral tool that motivates them to put forward quality services that in turn develop their resources. Hence, the firm realizes the market needs and create a separate vertical of its training centers that help the guards get equipped with advanced training infrastructures. They have already partnered with central and state governments country-wide to achieve and meet skill targets across 8 states.

- **Housekeeping**

With the festivities knocking around the corner, and with the hospitality sector coming back to its boom, Orion Secure company's extended housekeeping services have become pivotal. The services are majorly targeted towards the hotels and offices which will involve the team taking complete care of the guest requirements. These services include windowsill dustings, cleaning furniture, premises cleaning services, or commercial cleaning services. The team goes through extensive training that can reflect upon the client's instructions and implement them effectively.

With this, the Orion group has, with time, proven their services to be fully compliant and certified leading to be trusted by over 1000 clients spread over various industries. So this Diwali joins hands with Orion and lets the industry experts take care of all your property management needs.
