

TRING :Multifunctional and stylish multitool that can save your life in the most extreme situations

Wilmington, Nov 25, 2020 ([IssueWire.com](https://www.issuewire.com)) - Emergency Seatbelt Cutter | Screwdriver | Phone Ring | Bottle and Box Opener and so much more for Any Situation in Your Life.

TRING takes phone grips to a whole new level of usefulness.

Tring is designed for your safety. We think that every driver should have a small seat belt tool. You never know in advance what's going to happen tomorrow or what kind of situation you might be in. We hope everything will be ok, but for your safety, it is important to be prepared for any situation.

While seat belts save lives, in an emergency, it may be necessary to quickly cut the seat belt. To cut the seat belt you may need our multifunctional tring, which also has this function. Tring can become indispensable as the most necessary tool in crisis situations. Using tring you can easily and quickly cut your seat belt! It is more than just a phone ring, Useful For All Situations and Always With You

Milled from high-alloy heat-resistant chromium steel, TRING is designed with a mindset to provide you with unprecedented and the most convenient control over your device.

The TRING campaign started on 11/17/20 and ends on 12/17/20. We are working towards our funding goal of \$5,000 and you can pre-order TRING right now starting at \$15 for our early bird deal. After the TRING campaign ends, rewards are estimated to start shipping in March 2021. Visit our [Kickstarter](#) page for all the details
