Venture Slopes announces the creation of an innovative incubator: Venture Slopes Labs

Lehi, Nov 6, 2020 (Issuewire.com**)** - Venture Slopes announces a new division of the private family office, designed to create a highly unique experience, built ground up for start-ups looking to significantly elevate their valuation. Venture Slopes Labs will serve the Silicon Slopes Utah Tech community by providing an elite incubator platform focused on enriching start-ups lacking the full spectrum of development and growth resources.

Venture Slopes Labs will specifically offer entry into its program for start-ups providing innovative and disruptive B2B solutions, looking to greatly enhance their value through operational and developmental expertise and support. As part of the variety of solutions offered by Venture Slopes Labs including back office, business development resources, software development support, board governance, etc.; incubator members may also receive a seed round or scholarship opportunities.

Venture Slopes Labs has already begun granting access to its exclusive incubator program for several start-ups based in the Silicon Slopes area of Utah and will continue to expand its offering to additional start-ups fitting its criteria. “We are thrilled to serve a variety of start-up companies in Silicon Slopes and offer the resources and development designed to scale and grow the value of each of our incubator members,” said Spence Angerbauer, CEO and Managing Partner of Venture Slopes.

Venture Slopes Labs will operate as a division of Venture Slopes, LLC and will officially open its incubator lab to additional start-ups beginning the first of 2021. For more information regarding Venture Slopes incubator program or to apply to become an exclusive start-up member, please contact Venture Slopes directly at info@ventureslopes.com or visit online at https://ventureslopes.com.

Venture Slopes is a privately held family office focused on Technology and Real-estate investments. Founded in 2018 by tech entrepreneur Spence Angerbauer, Venture Slopes serves the Silicon Slopes as well as the Silicon Valley areas, with offices in Lehi, Utah and San Francisco, California. Spence Angerbauer founded EQUINOX Business Solutions, an INC 50 company which he grew to over $100 million in revenues as one of the fastest-growing companies in the U.S. In addition, Spence Angerbauer has founded a handful of other start-ups as well as serves on the board of various large private nationally recognized companies including AAA. Venture Slopes invests first and foremost in innovative as well as disruptive individuals and teams, recognizing that the very core of success is derived in remarkable people.
