

VERAWA WORLD Announces Start of AWACoin Private Sale

AWACoin offers holders substantial benefits of decentralization, transparency, transaction efficiency, lower costs, and a better overall tourism experience.

Panama, Nov 22, 2020 ([Issuewire.com](#)) - Panama-based hospitality development company [VERAWA.WORLD](#) has announced the launch of its [AWACOIN](#) utility token. VERA WA WORLD is a pioneer in the real estate development sector, with licensed partners in several countries, and offers interested parties a unique token that is backed by a land portfolio. The AWACOIN ecosystem is geared towards all types of investors, crypto and real estate enthusiasts, accepting bitcoin and ethereum, in addition to traditional fiat payments.

VERAWA WORLD has a mission to create a seamlessly interconnected market of real estate enthusiasts, patrons, institutions, and hospitality providers. With its innovative funding and circular economy system, AWACoin has the potential to uproot the traditional real estate investment and tourism markets. AWACoin and VERAWorld's popularity has grown faster than anticipated, and it now looks to expand to the global stage with its utility token offering.

[AWACOIN](#) is not only a pioneering real estate development platform, it is also an online global collective for investors and holidaymakers alike. VERA WA WORLD aims to raise the necessary funds for PURE BEACH RESORT, its first of several resort developments on Panama's Caribbean Coast, as well as for other future infrastructure developments.

VERAWA WORLD COO Max van Rijswijk:

“ITO/ICO crowdfunding projects in Europe have already reached a significant level of growth, adoption, and maturity. We decided to take that a step further. VERAWA WORLD’S Real Estate ITO is not just raising money for project development, it also allows you to take part in a highly profitable and incredibly rewarding hospitality industry. We will be interesting to both investors and individuals seeking new and adventurous ownership opportunities.

Van Rijswijk continues:

We don’t just raise money for the development of [PURE BEACH RESORT](#), we also share parts of the profit from each development with our partners and local communities. Our ICO/ITO team and consultants have experience of successful crowdfunding work in America and Europe and we made the AWACOIN ecosystem as international as possible.“

Varying legislation around the participation in ICO/ITO offerings across the world has persistently hindered millions of people from being able to get involved in the business end of the real estate and hospitality industry, but now VERAWA WORLD has the answer.

The master-plan of VERAWA WORLD, consists of 12 individually themed resorts with a total of 3,455 accommodations and 50+ tourism attractions, all situated along 10 kilometers of turquoise blue pristine Caribbean beachfront.

Once VERAWA WORLD will open its doors to the public, token holders can use their AWACOIN for the purchase of real estate properties, long-term lease of various resort accommodations, as well as short-term stays, attractions, food&beverage, tours, and excursions.

Being able to convert AWACOIN into real high-value assets, goods and services make AWACOIN a more stable, secure, and growth-driven token than any other utility token currently on the market.
