

Wolf777 Launched New Deposit and Withdrawal Features

Mumbai, Nov 23, 2020 ([Issuewire.com](https://www.issuewire.com)) - **"WOLF777"** added new features on their website that allow online gamers to easily deposit and withdraw money from their wolf gaming account. The website is known for the [best online betting games in India](#) and these new features will definitely strengthen their position in the gaming community. The newly added features include:

Multiple Payment Modes

Wolf777 - India's best casino games website added new payment options for online gamers. The newly launched feature includes multiple payment modes that can be used for easy and safe money deposits for playing online betting games. Players can use Paytm, Google Pay, Jio money, Amazon Pay, UPI method, Rupay, VISA, and Mastercard to add money to their wolf account. This money is used to play online casinos, slot games, other gambling games, and bet on live matches like cricket, football, soccer, and other games.

Direct Deposit

The next new feature added is the direct deposit which is a much-awaited feature that most online casino players are looking for. No one likes being kicked out from a game due to insufficient funds or waiting for a long duration even after the money is deducted from their bank account or online wallet and take time to reflect in the gaming account. The newly added feature will allow the player to add online money directly to the wolf account using multiple payment options without any delay.

Direct Withdrawal

Wolf777's next added feature will surely be liked by the online casino players as everyone wants the money to be added to their bank account or online wallet after they have won a jackpot online. The money will be transferred to the players' bank account from the wolf gaming account in no time.

With these new features, the management is planning to attract new players to their gaming website. These are features are the priority of the developers and management team as no one wants to compromise on the overall gaming experience of the players.
