

# Big News! Cipas Container Has Now Expanded Their Dumpster Rental Service Area Into Monmouth County NJ

**Responding To Massive Demand, Cipas Container Decided To Expand And Provide Service To More Areas In New Jersey.**

**Los Angeles, Dec 2, 2020 ([IssueWire.com](https://www.issuewire.com))** - Popular dumpster rental service Cipas Container has decided to expand its services to Monmouth County. Initially, the container company only serviced Middlesex, Union and Somerset Counties but the rising demand for their container service has joyfully made them branch out into other New Jersey areas.

Cipas Container primarily works with property managers, realtors, contractors, homeowners and brokers to help them get rid of waste materials from their homes and sites. Being the most preferred service for waste removal, Cipas Container specializes in home cleanouts, scrap metal and iron removal, construction site clean up, landscaping clean up, demolition haul away, recyclable clean up and more. But also by law, their debris containers do not carry or dump hazardous materials like oil, gasoline, asbestos or paint.

Cipas Container's dumpsters come in five sizes. They carry and recycle all types of debris. Their dumpster sizes include 10yd, 15yd, 20yd, 30yd, and 40yd dumpsters.

Clients can select dates when they would like their debris to be collected and cleaned up on a month, weekly or biweekly basis. Homeowners get really fast and same day service. All debris and waste is collected and cleaned up in the most professional manner.

"Founded in 1995, we are a family run business and have been serving New Jersey in keeping it clean from garbage, waste materials and foul smell. For 25 years we have excelled in waste management and have been servicing various counties with aplomb. Our dumpster rental has been the best and the most sought-after in the state and that's why we're expanding. Our Container Service can be at your service any day you say. Our wide range of debris containers are more than equipped to handle all the garbage that has accumulated, whether it is for homeowners, contractors or others. We'd like to assure you - nobody does this job better than us", said the founder of Cipas Container.
