

Dheshnie Thangavelu, MD, an Anesthesiologist with Deez Skin Rejú

Get to know Anesthesiologist Dr. Dheshnie Thangavelu, who serves patients in Vancouver, British Columbia, Canada.

New York City, Dec 18, 2020 ([IssueWire.com](https://www.IssueWire.com)) - Dr Thangavelu is a double boarded anesthesiologist with an amazing skill with needles and an incredible eye for facial aesthetics. She currently serves patients at Deez Skin Rejú in Vancouver, British Columbia, Canada.

Deez Skin Rejú is a professional aesthetic and pain therapy clinical practice employing board-certified doctors and technicians to ensure that clients receive the highest possible standards of care and attention. Services offered at the practice include: skincare, laser therapy, pain therapy, hair restoration, beauty aesthetics, and body sculpting.

A 1998 graduate of the University of the Witwatersrand, Johannesburg in South Africa, Dr. Thangavelu is certified in aesthetics with Botox & fillers, PRP for facials, hair loss, and P shots, mesotherapy, sclerotherapy, PDO threads for non surgical face lifts, interventional pain medicine, as well as Botox for migraines, depression, and TMJ disorders. Her training in aesthetics is mainly from the United States & Canada and she is continually training and learning more advanced therapies for pain and aesthetics.

Licensed to practice in three countries (Canada, United Kingdom, and South Africa), Dr. Thangavelu comes with years of experience. She still practices anesthesia to keep up her skills and teaches residents and medical students as a Clinical Instructor within the Department of Anesthesiology, Pharmacology & Therapeutics, Faculty of Medicine at The University of British Columbia.

In addition to being a Fellow of The Royal College of Physicians and Surgeons of Canada, she is a member of Specialists of BC and Doctors of BC.

Anesthesiology is the medical specialty concerned with the total perioperative care of patients before, during, and after surgery. It encompasses anesthesia, intensive care medicine, critical emergency medicine, and pain medicine. Anesthesiologists have the primary responsibility of monitoring the patient's vital signs during surgery. In addition to basic measurements such as pulse, blood pressure, and temperature, they measure the patient's respiration.
