

Dynamics Business Solutions Released Dynamo Payroll Software

Dynamics Business Solutions announced that they release their new Dynamo cloud based payroll software.

Dubai, Dec 6, 2020 ([Issuewire.com](https://www.issuewire.com)) - Dynamics Business Solutions are pleased to announce the [Dynamo cloud-based payroll software](#) and also confident the added features in Dynamo will allow organizations to pay employees promptly and also add satisfaction.

Dynamo Payroll is manageable, trusted, easy-to-use, and yet complete application that uses advanced technology to make human resources into a collaborative, strategic function inside the organization.

Dynamo HR and Payroll transforms administrative staff into knowledge workers and empowers the HR department to play a vital and strategic role in their organization's success.

Dynamo Payroll is a complete set of modular software applications that automate HR and Payroll Management. It helps an organization to accurately and efficiently handle your human resources and employee benefits tasks.

It maintains the employees up to date with easily accessible information that assess and reported in real-time. Dynamo payroll provides the flexibility of preference, easy integration, high end, and reliability that forward-thinking organizations depend on to boost success and obtain a competitive benefit.

The Employee Master Index helps to manage the employee information and keep old records of employee information, making sure automated and efficient processing with full details of employee's transactions.

Dynamo is cost-effective, easy to learn, and quick to apply -it can be up and operating within eight weeks!

Dynamo is our fully configurable and efficient HR & Payroll solution made for the gulf region. Dynamo runs inside Microsoft Dynamics 365 Finance and Operations for easy integration, is deployed on-premise or in the cloud, and built-in with the standard US Payroll and the Finance module of Dynamics 365 FO & Dynamics 365.
