

Evermark Brings On Experienced Building Products Executive Bill Gardner As COO to Lead the Company's Growth Initiatives

As the large home building products manufacturer and distributor in Suwanee, GA, undertakes major growth and innovation initiatives, addition of Gardner to the team as COO rounds out and compliments seasoned executive team with history of success.

Suwanee, Dec 1, 2020 ([IssueWire.com](https://www.issuewire.com)) - Evermark recently announced the addition of Bill Gardner as Chief Operations Officer.

Bill has been working in the building products space for many years, developing a reputation for process efficiency and consistency, as well as for driving the type of growth that Evermark has on its radar for 2021 and beyond.

Bill has held various leadership roles in manufacturing, distribution, and finance with Alcoa and Masonite and was most recently CFO at UBEO Business Services.

About his new role at Evermark, Gardner says, "I am thrilled to join such a respected business and team of people to help continue ***Building Infinite Possibilities.***"

One such product Gardner feels represents Evermark's commitment to innovation, is the company's recently launched door security jamb replacement, [Everstrike™](#). Everstrike simplifies the process of replacing or reinforcing a damaged front door jamb for additional security and Gardner thinks it could be a difference-maker in the industry. Only currently available in select Home Depot stores, Gardner hopes to expand this availability soon.

Evermark CEO, George Liu, comments on the addition of Gardner to the company, "We are confident Bill is the leader we need to guide Evermark in achieving not just our growth and innovative initiatives, but who will also support and encourage Evermark's other team-centered core values."

###

About Evermark

Evermark's mission is to optimize the creativity and passion of our people to drive innovation and instill superior design into our products, ensuring we deliver the highest levels of value and quality to our customers. From earliest beginnings in 1990 to the substantial specialty millwork, home improvement, and building products powerhouse Evermark stands as today, the company provides innovative offerings that enhance the value and beauty of a home.
