

Leading Educator and Author shares secrets and strategies to successful online teaching in today's COVID-19 world

Teachers need an authentic connection with students to feel more confident in teaching online. They need to remove obstacles like technology, fear, and lack of support that stop them from taking action and growing while teaching online.

Philadelphia, Dec 2, 2020 ([IssueWire.com](https://www.issuewire.com)) - Nationally respected educator and author Dennise Heckman is proud to announce the release of her new Amazon best-selling book, **“Dynamite Online Teacher - 110 Tips, Tools & Ideas to Connect With Your Students Online & Embrace Progress.”**

The onset of COVID-19 has drastically changed the learning landscape for our nation’s children, and teachers are struggling to find effective ways of keeping students engaged and excited to learn in these new virtual classrooms.

Teachers are passionate about their subject matter but aren’t sure how to demonstrate that from a computer screen. “Dynamite Online Teacher” is a timely, practical, done-for-you guide that focuses on navigating the pain points most heard from today’s educators:

- **Technology**
- **Engaging and Assessing Students Online**
- **Connecting with Virtual Students**
- **Adapting Curriculum**

“Dynamite Online Teacher” focuses on practical solutions. But Heckman also wanted to touch on the emotional aspects of teaching.

“You will learn how to incorporate humor into your teaching and accommodate students regardless of their learning styles.” Heckman explains, “You’ll also learn how to take care of yourself and how to address perfectionism-based anxiety and cope with the fear of failure.”
