

Leawo Video Converter Ultimate Mac 8.3.0 Updates Roundup: Support the Conversion of 4K Blu-ray Discs, and More

Leawo Company has recently upgraded Video Converter Ultimate Mac 8.3.0 with new functions added, including supporting the conversion of 4K discs, optimizing the Downloader module inside. Moreover, it enables to save output video as lossless MP4 files

Shenzhen, Dec 21, 2020 (Issuewire.com) - Leawo Company has recently upgraded Video Converter Ultimate Mac 8.3.0 with new functions added, including supporting the conversion of 4K discs, optimizing the Downloader module inside. Moreover, it enables to save output video as a lossless MP4 file.

Guangdong, China - 12/21/2020 - Founded in 2007, Leawo Software is a company specialized in processing and broadcasting media over the Internet, and its spectrum of products ranges from multimedia tools, Blu-ray/DVD tools, utilities, and iOS-related software. For a decade, Leawo has established a good reputation with its user-oriented service as well as advanced yet easy-to-use products for both novices and veterans. Not long ago, Leawo Company just rolled out its latest version for [Video Converter Ultimate for Mac](#), which is one of the top-notch programs on the market currently. Leawo Video Converter Ultimate is a versatile toolkit that integrates Blu-ray/DVD Ripper, [Video Downloader](#), Blu-ray/DVD Creator, and Video/Blu-ray/DVD Converter into the program suite, which means it is an all-around Blu-ray/DVD bundle, and users can employ the program to rip and convert Blu-ray/DVD content, burn & create Blu-ray/DVD, and even to download the videos from more than 1000 video-sharing sites.

More than that, Leawo Software keeps enhancing product performance through continuous updates all the time so as to provide a better item for clients. In the course of perfecting this program, Leawo has collected massive feedback from customers all around the world and fixed minor bugs accordingly.

What's new through the latest version of Leawo Video Converter Ultimate for Mac?

- Compatible with macOS Big Sur
- Support the conversion of 4K Blu-ray discs
- Lossless MP4 is supported for the output format
- Enable to convert partial Japanese adult DVDs
- Optimize the Video Downloader module and fixed problem on failure to decode certain videos from YouTube
- Add hardware decoding via VideoToolbox
- Improve the user experience

One of the most striking points in the new version is that people are allowed to convert or rip the 4K Blu-ray movie to the desired format with ease, even to the lossless MP4 format. With this program, people can watch, share, and save Blu-ray/DVD content in the way they like. It could rip and convert 4K Blu-ray/DVD to lossless MP4, [Blu-ray/DVD to MKV](#), 4K Blu-ray/DVD to AVI, 4K Blu-ray/DVD to WMV, etc., and then view the converted files on PC via media player software, such as [Leawo Blu-ray Player](#), VLC, etc.

Aside from that, this product is on sale at a big discount, for instance, the price of Leawo Video Converter Ultimate for Mac (for a 1-year license) is \$69.95 and clients can save \$134.75 at once compared to its original price. However, people can save up to \$199.75 if they purchase this program for a lifetime license now.
