

Sean T French invites you to NEW THINGS

JAN 01 2021 ICEHOUSE GALLERY PHX - NEW THINGS

Peoria, Dec 23, 2020 ([IssueWire.com](http://www.IssueWire.com)) - *"Armor is somehow historical and futuristic at the same time. It has been created for millennia and appears in countless paintings and sculpture throughout art history. It is protective, defensive... not offensive. We speak of our metaphorical armor. Form following function, strengthening and beautifying the human form. My sculptures use this as a style but attempt to take it to the next level in depicting creatures that are completely made of armor and that express emotion, primarily inspired by history and science, surrealism, ancient mythology, cosmic themes, theology, hood ornaments...and all shiny metal."* -Sean T French

Sean T French has spent decades creating award-winning art. He has developed a unique style of metal sculpting by utilizing refined armoring, metal shaping and casting techniques to produce highly polished master crafted metal sculpture. Sean will be showcasing dozens of sculptures including several new ones to create a spectacular feast for the eyes in this amazing space.
