

## Upcom launches IP55 free Standing Cabinet with and without air-conditioning

Upcom - Best Optical Fiber Infrastructure Service Provider

**Istanbul, Dec 23, 2020 ([Issuewire.com](https://www.issuewire.com))** - Upcom, a manufacturer of reliable Fiber and Copper connectivity solutions, launches IP55 rating 19" free-standing cabinets with and without air condition. Also, tailor-made products are available for their customers in Turkey and other parts of the world.

These IP55 rating free-standing cabinets protect against the dust ingress that could be harmful for normal operation of the product, protection against solid objects and water jet; air-conditioning in these cabinets helps keep the temperature low inside the cabinet. "We aim to help our country and other countries abroad that are looking for improving their communication network by providing them the best

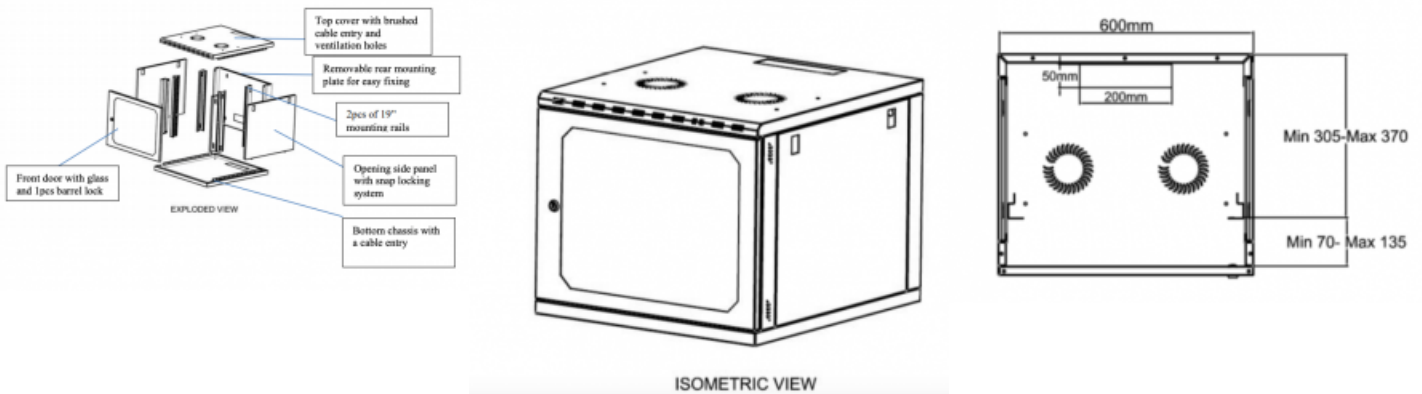

optical fiber infrastructure solutions.

We are one of the leading firms manufacturing both in Turkey and Europe with our best in class products portfolio specifically covers FTTH, FTTH, Air Blown Fiber Microduct Loose Tube Fiber Optic Cable, Breakout, MPO MTP Trunk, Riser, Hybrid, Composite and Aerial Fiber Optic Cables, Patch and Industrial Fiber Optic cables."We are also increasing our production capacity and recently invested and launched a new production area with a wide-open space of 10,000 sq meters and 3500 m2 closed area in Duzce.

With the product launch, we aim to maximize our customer satisfaction and reach our goal of creating a world where every citizen has access to a fast, reliable, and high-quality communications network from wherever they live and work."
