With revised, [Amazon Multi Channel Fulfillment fees](#) by WebBee Global, a seller become more powered to fulfill as many as number of orders with minimum price across the year, automatically. Auto Multi-Channel Fulfillment app by WebBee allows a seller to have its order on Shopify/BigCommerce to be fulfilled automatically by Amazon FBA through Amazon fulfillment centers via Amazons. The app is useful when order numbers are growing and requires seamless sync of customer data between Amazon FBA and Shopify without separate login into systems and manual data feeding. Along with huge saving upon Amazon Multi Channel Fulfillment Fees, the revised advance plan let a seller to have following fulfillment related benefits.

- The app offers aids to a seller to have an immense control over inventory of items stocked at Amazon fulfillment centers in order to tracked and shipped at customer's door address.
- Provides an easy access to huge Amazon FBA resources including fulfillment centers and skilled and experienced Amazon staff.
- The fees charged by Amazon multi-channel fulfillment fees competitively are far more affordable, simpler and competitive in comparison to other 3PL companies.

According to the CEO of WebBee Global Abhishek Jain, "The yearly Advanced plan launched for Amazon MCF for Shopify will help sellers to save huge amount on Amazon Multi Channel Fulfillment fee and of great aid to seller whose orders keep on growing on regular basis."
