

Xpress App All Set For The Public Cryptocurrency Token Sale In Coming Days

Xpress App is a next-generation digital platform that provides the complete system for storing, exchanging, and managing cryptocurrencies. The platform is all set to launch its token sale in the coming days.

Hong Kong, Dec 25, 2020 ([Issuewire.com](https://www.issuewire.com)) - Xpress Mobile App is a part of the Xpress INC. that makes the business affordable, simple, and understandable. This next-gen digital platform consists of a mobile messenger bot, cloud-based exchange, and a web-based portal. It is built on smart chatbots, AI, and Blockchain technologies.

The Smart-Chatbots automate the Xpress Mobile app's business process, AI automates the whole financial management process, and the Blockchain technology helps reduce the cost of cross-border transactions.

According to Cheng Tao, Marketing Manager of [Xpress App](#), "Our Xpress Mobile App supports the storage, exchange, and management of the financial assets in cryptocurrencies and fiat. The users can participate in the credit and loyalty programs. It helps users find the service providers and the suppliers can find particular customers in the cryptocurrency market. Moreover, we use encryption for proper security, as the traffic is encrypted with Advanced Encryption Standard using SHA or Secure Hash Algorithm and Diffie-Hellman Algorithm. The whole correspondence on our platform is encrypted with RSA-2048 algorithm."

The best thing about the Xpress App is that there is no use of hot wallets. The user can keep their funds securely, and the company does not have access to the user's private keys. The token sale will take place within a few days and the tokens accepted are ETH and BTC. The users can check the cryptocurrency exchange rates with us. There is no third party involved on the Xpress App platform, so the cryptocurrency exchange and the Atomic swaps are secured.
