

A Masterstroke Achievement In Interior Designing Made Citi Design Studio Proud

Pune, Jan 14, 2021 ([Issuewire.com](https://www.issuewire.com)) - A continuously growing trend in residential and commercial interior designing brought us unlimited opportunities to help our customers and to present our creativity in a unique way. Positive feedback from our clients, Unlimited hard work is taken by our team made [Citi Design Studio](#) a leading residential and commercial interior designer in Pune with eminent designing styles for your interior look attractive. And we achieved several milestones in our career. Our offers different styles for designing your interior in 'n' number of ways and style with commercial designing, interior designing, and 3D visual designs and are specialized in home decor.

Citi design studio located in Shaniwar Peth, Pune was started in March 2014 and has more than 10 years of industrial experience. The company is working with the aim of satisfying their customers in one go and accomplish the same.

The company has executed many projects like more than 100+ projects of residential interior designing and more than 40+ projects in commercial interior designing. That includes 1 BHK, 2 BHK, 3 BHK flats, kitchen, bedroom, hall, offices, restaurants, clinics, corporate place, and many more.

Which can also be seen in our portfolios. This is achieved by the hard work of the company and our

creative teams like designers, architects, managers, and on-site workers. Citi Design Studio provides you different styles for interior design like classic, traditional, modern, formal, contemporary, and many more.

A Unique Way of Project Execution :

Location Inspection: The first step is they visit the place where to design and check the area size of the location. and have face to face conversation with the customers.

Choice of Style: We know the ideas and taste of the customer by having a face to face communication with them and knowing their views on the same which help in executing the plan.

Space Planning: The third step is panning the whole space in a new way and share the same with the customers.

Ideas sharing: Sharing is a very important part of the execution of the plan, they share the same with their customers and check if they are meeting the needs of the customers.

3D visualization: We provide you with 3D visualization of the ideas and the team and the customers both can see the ideas in a walkthrough file which helps the customers to remove the fear that how actually their place is going to look. It gives them the complete idea and if further modification is required then it can be easily done. This saves time as well as work money.

Modification: After the sharing of ideas modify the things as per the requirement as requested y the customers and if not continue with the same modifications.

Material selection: Then the material is finalized of the best quality.

Finalizing: After selecting everything we finalize the plan and draw it out so that it can be easily executed.

Execution: Executing the ideas and words into reality and with the perfect coordination of all the management the project is executed.

Quality Check: The last step is quality check by giving the place to the owner and satisfying them in one go.

Citi design studio became the best interior designer in residential & commercial interior designing and is an expert in hotels, educational institutes, showrooms, and more. We plan everything with efficient architects keeping in mind the proper space, color, theme, lights, lobby, storage room, modular kitchen with everything close, and with a wardrobe.

Customers are very happy with the work of [Citi Design Studio](#) and the completion of the project and have given good reviews. We design your area in your budget and of course according to your need which depicts your personality and ideas. Whether the area is small or a house with 3 rooms, Citi design studio is always there to help the customers and design their place with love. This masterstroke achievement makes us really proud.
