

A Time to Reflect and Heal Through the Gentle Sounds of a Piano... Inspired by the Covid Confinement

New Uplifting Music Album Release: REFLECTIONS by Alejandro Santoyo

Durham, Jan 12, 2021 ([Issuewire.com](https://www.issuewire.com)) - "REFLECTIONS" by Alejandro Santoyo (Pianist and Composer)

- The talented composer and pianist have released his 6th album, "Reflections", inspired and composed during the recent Covid Confinement months, with original themes that convey

unique feelings of serenity, warmth, well-being, and hope.

- The album, which contains inspiring and uplifting piano solo tunes, reaffirms its great versatility, which goes beyond any musical genre. Thanks to his highly evocative and colorful compositions, Alejandro Santoyo is achieving great international recognition. The artist has performed successfully in the United States, France, and Mexico and has written music for theater, documentaries, TV, and film. Alejandro Santoyo began to play the piano by ear and to compose when he was seven years old. In his professional beginnings, he was a member of some successful children's pop music groups; However, his musical desires led him years later to attend the Berklee College of Music in Boston; and his great passion for concert music was rewarded when he earned a Master's degree in classical music from the University of New Mexico (UNM), during which he wrote his "Child's Play" symphony, recently performed at Baldwin Auditorium in NC. Alejandro Santoyo is a musician who transcends all classifications, to be considered simply as an original and distinctive artist, very complete and capable of inspiring a mysterious, dreamy space among his audience. His music does not hide any of his influences, in it, there is pop, new age, classical, jazz, avant-garde, and even a touch of techno. But his main voice is the piano. That's what we can hear in all his six albums: Elevation, New World, Embrace, Dreams for a Better Tomorrow, Peaceful Christmas, and now, REFLECTIONS. This new album includes songs that uplift, relax, and bring the listener to a different time and space, through mesmerizing piano solo melodies, unlike anything you have heard before.
