

Andrew R. Strickland, DMD, a Dentist with Plainville Family Dental

Get to know Dentist Dr. Andrew R. Strickland, who serves patients in Plainville, Connecticut.

New York City, Jan 14, 2021 ([IssueWire.com](http://www.IssueWire.com)) - A professional in the field of comprehensive family dentistry, Dr. Strickland is the owner of Plainville Family Dental in Plainville, Connecticut. His passion is in oral surgery, cosmetic dentistry, and caring for patients with dental fear.

“Our mission is to deliver the highest quality dental care possible in a comfortable and safe environment. It is our goal to give each of our patients the opportunity to achieve an optimal oral health level and a smile they can be proud of. We focus on listening to our patients and building a long-lasting relationship that is required to most effectively care for them” as stated on his website.

A native of Eugene, Oregon, Dr. Strickland received his Bachelor of Science degree and graduated with Honors from the University of Oregon in 2006. He then went on to earn his Doctor of Medicine in Dentistry degree from Oregon Health & Science University School of Dentistry in 2011. He was awarded a United States Navy Health Scholarship where he served as a Lieutenant Dental Corp Officer at Marine Corps Recruit Depot Parris Island South Carolina (MCRD Parris Island).

Immediately following dental school, he completed a one-year credentialing tour in Comprehensive Dentistry at MCRD Parris Island. He was then assigned to perform oral surgery over eighteen months where he received advanced training in oral pathology and wisdom tooth extractions.

A firm believer in continued education, Dr. Strickland is working towards earning his Mastership in the Academy of General Dentistry (MAGD). He received dental implant training with the London Institute in 2015 and has integrated cone-beam computed tomography in the placement of dental implants in his office.

Dentistry, also known as Dental and Oral Medicine, is a branch of medicine that consists of the study, diagnosis, prevention, and treatment of diseases, disorders, and conditions of the oral cavity. Dentists diagnose and treat dental issues and help patients develop better oral hygiene regimens. They clean teeth, correct bite issues, perform surgeries and extractions and perform other duties to ensure that the teeth and mouth are healthy.

In his off time, Dr. Strickland enjoys surfing, snowboarding, and spending time with his family and friends.
