

AWE Learning Receives Platinum in 2021 Modern Library Awards from LibraryWorks

Chester, Jan 14, 2021 ([Issuewire.com](https://www.issuewire.com)) - AWE Learning, the leading provider of digital learning solutions for early learners, is pleased to announce it has received multiple awards in LibraryWorks' seventh annual **Modern Library Awards (MLAs): Early Literacy Station™ Platinum - Platinum Award; Bilingual Spanish Literacy Station - Platinum Award; AfterSchool Edge™ Platinum - Gold Award**. The MLAs were created to recognize the top products and services in the library industry in a truly unbiased format. Products and services were submitted in the fall using a simple application and then were posted on a private site with an enhanced description and attendant materials. These products were batched into small groups and sent to the LibraryWorks database of more than 80,000 librarians in public, K-12, academic and special libraries. Only customers with experience with these products/services in their facilities were permitted to judge the products/services, resulting in a truly unbiased score.

Each judge scored the product on a numeric basis from 1-10 on a series of questions regarding functionality, value, customer service, etc.

Dr. Deborah B. Sorgi, AWE Learning President & CEO, said, "We are excited to be recognized by the Modern Library Awards for the fourth consecutive year. Our Platinum All-In-One products provide libraries with 75+ award-winning educational titles, delivered in a digital and safe environment. We are committed to providing libraries with fun, interactive, and most importantly, quality content that allows

children to build their early literacy skills and set them up for success. We are dedicated to serving young learners and providing libraries with resources that make them a community learning hub. We are pleased to share the launch of Platinum Online, our first cloud-based product, that gives libraries the opportunity for patrons to access a new suite of content from any internet-enabled device in the library or from home.

The Early Literacy Station™ Platinum, AfterSchool Edge™ Platinum, and Bilingual Spanish Literacy Station Platinum were launched in December 2018. Its preeminent features are:

- 75+ STREAM-aligned educational titles including coding, handwriting, cyber safety, fiction and non-fiction e-books, and more.
- Pre-loaded content creating a safe, interactive, fun, and educational learning environment – no internet required!
- Option to add-on bundles to offer more content on the same workstation.
- Access to the Customer Portal to demonstrate time on task and ROI.

Jenny Newman, publisher and MLA program manager said, "It's hardly a surprise that AWE Learning scored so well. They've been at the forefront of the industry since their company entered the market in 1994."

About AWE Learning (<https://www.awelearning.com>)

AWE Learning provides comprehensive digital learning and early literacy solutions for young children in public libraries and childcare. Our mission is to inspire an enthusiasm for learning by supporting school readiness and literacy in the community. Through our dedication to high quality, STREAM-aligned content that is easy to use, we collaborate with libraries to highlight their role as community leaders in the pursuit of learning.

About LibraryWorks (<https://www.libraryworks.com>)

LibraryWorks helps administrators to make informed decisions about library technology, automation and software, collection development and management, facilities and furnishings, staffing, purchasing, and other areas that drive effective strategic planning and day-to-day operations. Our family of resources can enable you to identify best practices, monitor trends, evaluate new products and services, apply for grants and funding, post or find a job, and even enjoy some library humor.

About the Modern Library Awards program (<https://www.modernlibraryawards.com/>)

The Modern Library Awards (MLAs) is a review program designed to recognize elite products and services in the market which can help library management personnel enhance the quality-of-experience for the library user and increase the performance of their library systems.
