

Charles Hill is More than a Recording Artist, he has Serious Entrepreneurial Skills

Georgia, Atlanta, Jan 20, 2021 ([Issuewire.com](https://www.issuewire.com)) - Atlanta, GA – Jan. 20, 2021 – Music recording artist [Charles Hill](#) also known as Trappa Madelt is well known for the music he makes. What many don't know is that the 33-year-old rapper is also a composer, music producer, and active in real estate, the stock market and now nutrition.

Hill has investments in the CBD, real estate and stock markets, and a wealth of other business ventures and enterprises. After continuing his education in health, he now channels most of his earnings back into his nutritional endeavors, enabling him to promote a healthy lifestyle for himself and others. Behind the

musical genius lies a shrewd mind and he's parlayed his business acumen into a net worth of more than \$2 million.

Born in Asheville, NC, life wasn't easy for the serial entrepreneur. He fell in love with the clear, clean notes of music when very young and began producing his own sounds at the age of 10. He taught himself to play piano and drums by watching others play.

He lost his mother at the age of 12 and was raised by his father. Eager to help the family meet the needs of everyday life, he conducted multiple hustles to earn money. It was an effective strategy and despite being mercilessly mocked by his associates, he persevered and continued to hone his artistry.

After noticing how extremely overweight and unhealthy he had become. Hill was on a mission to change his lifestyle habits. He now seeks out alternative and natural ways to optimize good health. He has worked alongside some of the music industries most recognized names. Hill has now dedicated his platform to one that advocates for building health and wealth through education and proper nutrition.

After recently venturing into the health and nutrition market, his [new company](#) is scheduled to launch next month. Connect with him on Social Media at:
