

Cool Relief Offers Soft Gel Hot/Cold Ice Packs To Alleviate Hip Pain

Cool Relief also has an extensive line of products for active individuals with joint pain.

Oklahoma, Oklahoma City, Jan 29, 2021 ([Issuewire.com](https://www.issuewire.com)) - Cool Relief is a one-stop-shop for all your pain relief needs. It provides hot and cold wraps and packs for the major joints and muscles in the body, all of which are designed to alleviate pain, reduce inflammation, and bring in a sense of physical and mental wellness.

The brand is known for its range of hands-free hot/cold soft gel packs for the hip region. The highlight of these packs is that they offer comprehensive coverage and flexibility when frozen. Moreover, its [hip ice wraps](#) are adjustable and ensure maximum stability and comfort even when the wearer is on the move, making them ideal for people who are recovering from an injury, those with weak hips, or those who need to bring down swelling after a hip surgery.

As they come with adjustable straps and a snug-fit soft foam sleeve, the hip ice pack wraps can be loosened or tightened as per the comfort of the wearer and can be worn for extended periods.

Cold therapy can be advantageous in reducing inflammation and bringing short-term relief when one incurs an injury or has undergone surgery. Hip ice wraps help to numb the area and are an effective pain management method. On the other hand, dry heat enhances blood circulation and speeds up healing during the recovery period. The USP of Cool Relief's products is that they are all-in-one pain relief packs, meaning that they can be used for both hot and cold therapy. They can be heated instantly in a microwave for rapid relief. Offering free shipping to its customers in the United States, its products come with a one-year warranty.

About Cool Relief: Cool Relief is based out of Oklahoma and it deals in heat and ice packs for targeted pain relief.
