San Jose, Jan 12, 2021 (Issuewire.com) - The Global Data Analytics Outsourcing Market was \$4.3 Bn in 2020, and it is expected to reach \$36.3 Bn by 2031. It is eventually growing at a commendable high compound annual growth rate CAGR of 20.6% between 2021-2031 as per the latest market research report titled [Global Data Analytics Outsourcing Market](#) (By Type – Descriptive, Predictive, and Prescriptive. By Application – Sales Analytics, Marketing Analytics, Finance & Risk Analytics, Supply Chain Analytics, Others. By End-Use – BFSI, Telecom, Retail, Healthcare, Media & Entertainment, Manufacturing, Others. By Geography – North America, Latin America, Europe, Asia Pacific, Middle East, and Africa.) - Industry analysis, size, share, growth, trends, and forecast, 2021 – 2031.

This growth of this market is mainly because of the emergence of social analytics along with the increase in the volumes of user data. Besides this, there is also an increase in the usage of social media which in turn has led to the generation of a huge amount of data. Hence if there is a reduction in the data storage prices it will further help to accelerate the growth of this market during the forecasted period.
