About Eternal Roses®

Eternal Roses® has become quite popular in a short span due to its creativity & spectacular designs. The company is globally recognized for its patented centerpieces and other preserved roses gifts.

Established in 2017, Eternal Roses® is a function-first company. Founded and run by US veteran Mr. Lance Horn & his wife Mrs. Monica Horn, Eternal Roses stands strong on creative innovation & value-added services. Since the beginning, the Horns family has focused on making best-in-class preserved rose products by using the highest quality materials and craftsmanship to deliver a product that will be admired by all.

The entrepreneurial vision was aimed at making Eternal Roses® a gift and décor brand that is more enduring than what traditional florists can offer, while still providing the freshness of natural roses. The team searched for premium roses all over the world for several years before sourcing and developing the initial collection for Eternal Roses®. Finally found them in the highlands of Ecuador, where fertile soil conditions and micro-climates are ideal for growing over 400 varieties.
