

Etisalat Yellow Pages is bringing the ease of communication by enabling WhatsApp messaging feature.

Abu Zabi, Jan 4, 2021 ([Issuewire.com](https://www.issuewire.com)) - Etisalat [Yellow Pages UAE](#) is one of the largest B2B platforms wherein you can list your business and get a huge appearance. The portal is already having incredible features that enable the best experience for a B2B platform.

Yellow pages UAE have always been bringing ease for your business. We always improvise to ease the

communication with better understanding. Considering the instant action and support to the customers we have brought the easiest way of communication for the clients that is WhatsApp.

WhatsApp is a cross messaging feature that is being used by more than millions of people.

Almost everyone has WhatsApp on their phone, which resulted in quick response for any message.

Analyzing the challenges for technical support, guidance, training, Demo, and more with the client. We have included the WhatsApp Messaging platform for ease of communication.

WhatsApp is the vastly used messenger for instant communication. Now we have made it easier for the registered sellers to get instant details for all their queries. Get quick replies for any of your queries through WhatsApp.

What has just become easier?

It will now become effortless for the sellers to communicate for any detail. That includes the following;

- Receive leads and inquiries through WhatsApp
- Send requirements for an update for instant response
- Get basic guidelines for any changes instantly through WhatsApp
- Get zoom meeting links on WhatsApp, and join the meetings immediately
- Make and manage your work effortlessly by contacting your account manager through WhatsApp
- You can share documents, images, and other details directly through WhatsApp.
