

FIIDO Established Overseas Warehouses in the US

After selling vast quantities of the well-performed D4S, D11 and other popular e-bike models, the overseas warehouses of FIIDO are eventually available in America, which brings more convenience to our customers.

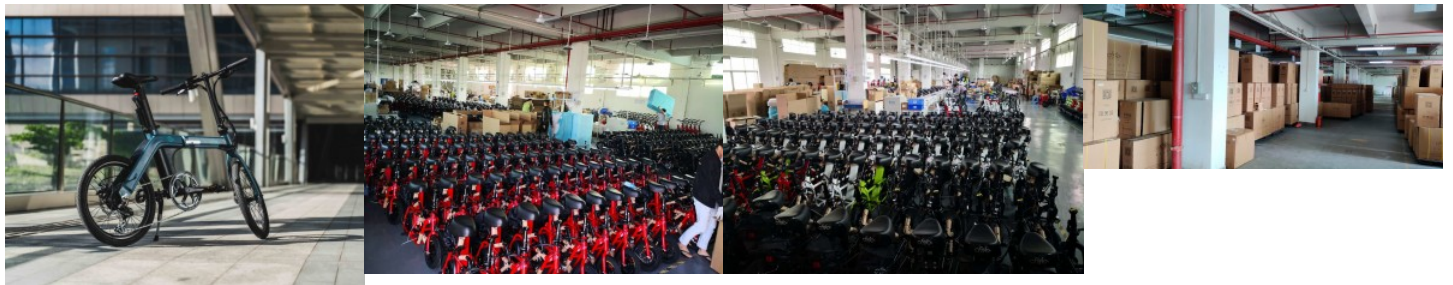

Guangdong, Shenzhen, Jan 25, 2021 ([Issuewire.com](http://www.Issuewire.com)) - FIIDO Technology Development Co., LTD, creators of [D11](#) and other high-performance electric bicycle products, is proud to announce the opening of overseas warehouses in New York and California. The overseas warehouses of [FIIDO](#) opened in December will serve tons of customers placing orders on our official websites. In addition to handling product delivery matters, FIIDO overseas warehouses will also specialize in the after-sales service. The sales manager responsible for the entire shipment in the US, Caroline, says there's no better time to open new warehouses than now. There are many opportunities that exist in today's market, especially for riders in demand of electric moped.

After weeks of preparation and the cooperation of all parties, the overseas warehouses are ultimately rolling out in New Your and California last month. For American customers, the hot sale models including D11, [M1](#), [D4S](#), [D2S](#) can be purchased online at fiido.com and then shipped directly from two overseas warehouses in NY or CA.

It's worth noting that the D11, M1 are beyond all praise for the eye-catching design and practical functions, which have attracted multitudinous loyal fans, so the overseas warehouses are undoubted of great significance to them. The brand-new warehouse in the US provides timely delivery service, allowing people to receive our products in a much shorter period of time.

“We feel excited and take great pride in announcing the establishment of the overseas warehouse in the US,” said Mr. Wang, CEO, and founder of [FIIDO](#). “Compared with the previous timeliness, customers will be able to obtain the e-bikes or accessories ordered on our official site about two weeks earlier.
