

Lucy Boyadzhian, PA-C, a Physician Assistant with Vivant Aesthetics

Get to know Physician Assistant Lucy Boyadzhian, who serves patients in Los Angeles, California..

New York City, Jan 5, 2021 ([Issuewire.com](https://www.issuewire.com)) - The Founder of Vivant Aesthetics, Lucy has earned her reputation as one of the best aesthetics professionals in Los Angeles with her refreshingly unique and impacted approach to beauty and aesthetics.

For each patient, she creates a customized holistic solution to deliver natural results for all ages, genders, and skin types that last a lifetime. She pinpoints the root cause of her patient's concerns instead of merely masking the problem areas. Instead of fighting against the aging process, she trains the body to self-heal, restore, and rejuvenate.

A graduate of Charles Drew University of Science and Medicine, Lucy is passionate about staying on the cutting edge of the latest cosmetic and medical spa services and trends. That is why she is always among the first to offer the latest, most innovative aesthetic services and techniques in Los Angeles, ensuring maximum results with minimal downtime. Supplementing her near-decade of experience as a certified physician assistant include continuing education programs and training seminars held all over the world.

In the coming future, Lucy plans on bringing new providers on board who have a similar approach to anti-aging to guide and train, and to potentially expand her brand to different cities.

A physician assistant is a health care practitioner who practices medicine in collaboration with physicians. They examine patients, prescribe medicine, and order diagnostic tests. In most cases, they work under the supervision of physicians or surgeons, but they can work more independently in some states, rural areas, and inner-city areas, consulting with physicians only when they need help with cases.
