

Marc Harrigan, MD, Family Physician, Concierge Medicine of Buckhead

Get to know Family Physician Dr. Marc Harrigan, who cares for patients in Atlanta, Georgia.

New York City, Jan 7, 2021 ([Issuewire.com](https://www.issuewire.com)) - Dr. Harrigan, a highly respected family physician, established Concierge Medicine of Buckhead in 2018, to provide patients with a uniquely personalized experience.

“Offering my patients all the time they need at every visit to address each question and concern without feeling rushed is undoubtedly the greatest benefit of concierge medicine. We take a truly holistic approach to care and go beyond a patient’s immediate symptoms to discover what keeps them up at night, what’s going on in their family life, and what is bringing them the greatest satisfaction. All are key to forming the powerful physician-patient connection we all seek,” says Dr. Harrigan.

“The energy Dr. Harrigan brings into the room is unbelievable,” says patient MH. “You know he’s listening to you. He really cares, really wants to know who I am.”

After hours, patients are able to reach him directly on his cell phone and receive immediate guidance and advice, a benefit shown to significantly reduce the need to visit the emergency room or be admitted to the hospital. Other benefits of membership at Concierge Medicine at Buckhead are individualized care, same or next-day appointments, in-depth visits, and a strong focus on long-term health and wellness.

“I work in the corporate sector and what I appreciate most about this practice is the flexibility in scheduling and that my doctor is available 24/7,” says patient WH.

“Concierge medicine is all about personalized care and proactive wellness and delivering the highest quality of care every day—always exceeding patient expectations,” says Dr. Harrigan.

“I’ve never met another physician who is so thorough in what he does and gets to the bottom of every symptom,” shares patient CJ. “I’ve also never had a doctor who calls me and says ‘hey I haven’t seen you in a while, you need to get in here.’”

Adds patient VR: “I don’t even have to call and call the office to get results, he’s on top of it. I feel cared for.”

A firm believer that a trusting and honest relationship between doctor and patient is essential to family medicine, Dr. Harrigan’s goal is to provide comprehensive healthcare to all of his patients. Emphasizing a proactive approach to both disease prevention and wellness, his interests include hypertension, diabetes, chronic disease management, obesity management, and nutritional well-being.

“My philosophy of patient care is simple. I care for every patient as if they were a cherished family member, and in fact, I consider them exactly that,” he says.

With almost two decades of primary care experience, Dr. Harrigan served as the Regional Medical Director at Piedmont Hospital (2013-2018), a physician at Piedmont Hospital (2008-2018), a physician at Cobb Family Medicine, (2005-2008), and as a physician at Sentara Healthcare in Norfolk (2000-2005). In 2018, he worked with [Specialdocs Consultants](#) to launch his personalized medicine practice, Concierge Medicine of Buckhead.

“We are honored that Dr. Harrigan has become an integral part of our network of outstanding concierge physicians around the country,” says Specialdocs CEO Terry Bauer. “He is an exceptional doctor who has long recognized the irreplaceable value of a profound physician-patient connection built over time that is at the heart of concierge medicine.”

Among his professional affiliations, he is a member of the Academy of Family Physicians, the Atlanta Medical Association, the Georgia Academy of Family Physicians, and the Medical Association of Georgia.

Dr. Harrigan received his Bachelor of Arts degree in Biology from Brown University in 1991 and his medical degree from the University of Virginia School of Medicine in 1997. He completed his internship at St Joseph Medical Center in Stamford in 1998 and a residency at Riverside Regional Medical Center in 2000.

He is board-certified in family medicine through the American Board of Family Medicine, a non-profit, independent medical association of American physicians who practice in family medicine and its sub-specialties. Family medicine is a medical specialty devoted to comprehensive health care for people of all ages. A family physician is often the first person a patient sees when seeking healthcare services. They examine and treat patients with a wide range of conditions and refer those with serious ailments to a specialist or appropriate facility.

Actively involved in his community, Dr. Harrigan is a volunteer coach at Northside Youth Organization and sits on several non-profit boards. In 2011, he received the distinguished Leadership Atlanta recognition. A devoted husband and father of two boys, Dr. Harrigan enjoys doing fitness, traveling, playing golf, as well as spending time with his family and friends.
