

MojoStreaming Ltd. announces the appointment of Munir Noorbhai as Corporate and Financial Advisor

MojoStreaming Ltd., holding company of the wildlife streaming network, MojoStreaming.com, today announced the appointment of Munir Noorbhai as their corporate and financial advisor.

Ontario, Toronto, Jan 21, 2021 (Issuewire.com) - "I'm super excited about being a part of MojoStreaming Ltd. because it's truly a unique concept and there is nothing else like it anywhere globally. I was surprised that no one else has come up with a concept like this earlier, considering that

there is a fairly substantial segment of our global population that is interested not only in accessing a wide selection of Wildlife themed programming but also in ensuring that our already threatened Wildlife species across the globe has a voice" said Noorbhai.

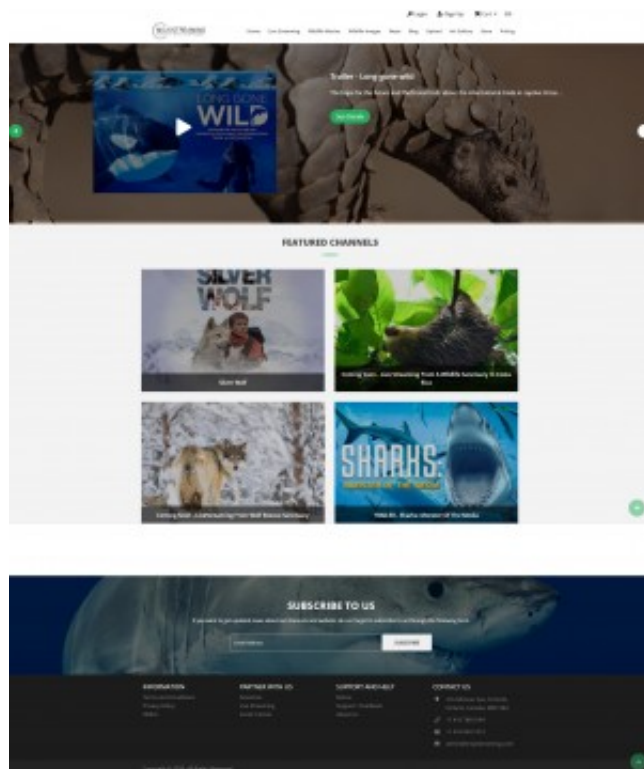

A veteran of the film and television industry, Munir began his professional finance career at Entertainment Partners Canada, a member of the Com web Group of Companies. He later moved to William F. White International Inc., one of North America's leading studio and equipment service provider, working in the company's Finance and Administration Department in a number of leadership roles in which he oversaw the company's Accounting, Finance, Corporate Administration, Treasury and M&A functions, eventually working as the company's Executive Vice President and CFO. During the course of his 25 years at William F. White International Inc., the company saw significant growth and was eventually sold to a public company in 2019, after which Munir decided to pursue other interests. Munir is a Fellow of the Association of Chartered Certified Accountants of the United Kingdom. He is also a member of the Chartered Professional Accountants of Canada and holds an Honors Degree in Business Administration.

Bernard van Speyk, C.O.O., and President of MojoStreaming expressed his delight at Noorbhai joining MojoStreaming. "Munir's skill and experience are major assets in assisting MojoStreaming Ltd. to map out our future as we grow from strength to strength in our formative years. His presence has imbued management with an additional level of confidence and enthusiasm. We look forward to a long relationship with Munir".

About MojoStreaming

MojoStreaming Ltd.'s wildlife channel, [MojoStreaming](#) is a subscription-based streaming service that caters to a niche audience – people who are passionate about wildlife.

[MojoStreaming.com](#) not only hosts a great library of Wildlife movies but also offers live streaming cameras carefully positioned in Wildlife sanctuaries across the world to ensure that its subscribers have 24-hour access to stunning live footage of every species imaginable from accredited sanctuaries around the world. Viewers can follow the progress of injured animals as they are nursed back to health and can be released back into the wild. In addition, the channel provides up to the minute wildlife news from around the world, as well as a number of additional value-added features to enhance its subscribers' experience.
