Head to Head With Jezebel

**Saying No To Manipulative
and Abusive Relationships**

By Award Winning Author,
Wisdom Mupudzi

Victoria, Melbourne, Jan 25, 2021 ([IssueWire.com](https://www.issuewire.com)) - As another year gains momentum, many people have relationships as one of their top goals for the year. With each new year, there is fresh hope. However, within a few days or so, the reality of the harsh world emerges. We still have drug abuse in many places, we still have domestic violence in many homes. We still have many men and women who are getting injured or sometimes get killed by a very violent, and vicious partner.

Relationship Abuse

Relationship abuse is rampant in many homes and not only that but even in our young people. For some people, it's just that it has been going on for a long time that some people have been conditioned to that abuse, to the point where it becomes the "normal". This is one of the reasons, why Award-Winning Author, Wisdom V Mupudzi wrote [Head to Head With Jezebel](#). This is a book that seeks to educate and empower people especially young people, about this area. Wisdom believes, that prevention is the best cure. Please note, the ebook version is currently running at a low price for a limited time only to celebrate the release of the book in Print. He encourages healthy boundaries as well as zero tolerance towards any form of abuse. By identifying the warning signs, people can take preventative action early enough. Some people got married to people that shouldn't have made it past hello. One of the things that we saw is the huge spike in demand for counseling services at the onset of the pandemic last year. The challenges of the pandemic presented, "pressure cooker" conditions as people were in lockdown and had to be home majorly at the same time than at any given time. This presented a lot of challenges. Wisdom is no stranger to the subject of relationships. He also wrote Uncommon Destiny Uncommon Partner which was his first book and which went on to win an international award.

Abuse in the Church.

One of the controversial topics that Head to Head with Jezebel covers is the subject of Abuse in the church. Whilst many people think and believe that a Church is a place of worship and wouldn't expect things like abuse to take place. The reality is that there are many cases of abuse by church leadership. In Australia, over the years, many stories have made headlines of Catholic pastors who were found to have abused young boys, etc. Right across the globe, there are plenty of cases of pastors using their positions to compromise members. The good news though is that Head to Head with Jezebel also looks at this as well as includes key things to consider before joining any church. After spending several years in ministry and serving in the ministry of prayer, Wisdom really began to fully understand church cultures, etc. "One of the things that helped me understand church cultures more is my movement from overseas to here in Australia as well years spent serving in ministry and hours spend on skype calls with friends from different parts of the globe who shared their experiences", Wisdom says.

For many people, the challenge is, no one ever taught them, what to look for in a church, etc. In the book, Head to Head with Jezebel, Wisdom, takes the reader through some of the key things to look at before becoming part of any church. Head to Head with Jezebel is a must-read book for every young person, who seeks to enter a long-lasting relationship with healthy boundaries etc. It's also for those who are currently seeking life partners, those in relationships as well as anyone who attends church regularly. Previously released as an Ebook, the good news is it's now available in Print format. Available
