

Steven M. Lasker, MD, an Anesthesiologist with Hackensack Meridian Health Ocean Medical Center

Get to know Anesthesiologist Dr. Steven M. Lasker, who serves patients in Brick Township, New Jersey.

New York City, Jan 7, 2021 ([Issuewire.com](https://www.issuewire.com)) - Fluent in both English and Hebrew, Dr. Lasker is a

board-certified anesthesiologist who has an impressive professional journey that spans thirty-five years. He is affiliated with Hackensack Meridian Health Ocean Medical Center in Brick Township, New Jersey.

Ocean Medical Center is home to exceptional talent, state-of-the-art technologies, and a growing medical campus, all surrounded by a community that offers the quality of life for individuals and families of all ages. This community hospital provides health care programs and services in all major medical disciplines. Some key services include designation as a Primary Stroke Center; brain lab and neurological surgery; DaT Scan and advanced imaging technology; DaVinci robotic surgery; general, thoracic, and vascular surgery; comprehensive cancer care and radiation therapy technologies; a Joint Commission accredited orthopedic program; one of the nation's most advanced cardiac catheterization laboratories and cardiac services; maternity; acute care of the elderly; and critical care services.

A 1985 graduate of the Carle Illinois College of Medicine, Dr. Lasker served his residency in anesthesiology at Emory University Hospital in Atlanta, Georgia. He then went on to complete his fellowship in cardiovascular anesthesiology at the Icahn School of Medicine at Mount Sinai in New York City, New York.

In addition to being a member of the American Society of Anesthesiologists, the doctor is board-certified in anesthesiology by the American Board of Anesthesiology (ABA). The mission of the ABA is to advance the highest standards of the practice of anesthesiology.

Anesthesiology is the medical specialty concerned with the total perioperative care of patients before, during, and after surgery. It encompasses anesthesia, intensive care medicine, critical emergency medicine, and pain medicine. Anesthesiologists have the primary responsibility of monitoring the patient's vital signs during surgery. In addition to basic measurements such as pulse, blood pressure, and temperature, anesthesiologists also measure the patient's respiration.

Dr. Lasker feels that his success is attributable to his dedication to his profession, his faith, his education, as well as his ability to provide quality patient care and to make a difference. Outside of the office, he enjoys juggling on a unicycle, traveling, listening to music, as well as spending time with friends and family.
