

UVify IFO 2021 New Year show with BTS climbing to become the most-viewed swarm drone show in history

UVify and BTS create a stunning vision of hope for the future with a swarm of 1,000 IFO light show drones

Seattle, Jan 4, 2021 ([Issuewire.com](https://www.issuewire.com)) - UVify makes history once again in 2021 with the New Year's IFO swarm drone show with BTS. As of Monday, January 4, 2021, the YouTube video of UVify's IFO new year's drone show with BTS and Big Hit Entertainment already hit two million viewers with zero signs of slowing down.

The milestone marks another in a string of achievements for the company, which took the world by storm with a string of awards in 2017 at CES and a consistent stream of awards in each year thereafter. The IFO is the latest commercial product from the award-winning drone company and is a complete ready-to-fly, end-to-end swarm light show drone package which includes hardware, control software, real-time technical and customer support, marketing, training, and bespoke services on request.
