

World's First Biodegradable Personalized iPhone Cases For Pet and Eco Lovers

Krakow, Jerzmanowice, Jan 24, 2021 ([Issuewire.com](https://www.issuewire.com)) - This week, [Paws n' Noses](https://www.pawsnoses.com) is launching a new website offering all pet and eco lovers to customize 100% biodegradable iPhone cases with their pet's photos. The phone cases come at a price of 32 Euro (about 35 USD) with free shipping in the US and Europe.

Customers will be able to select an iPhone model, upload the image of their pet(s) and the PnS team will do the rest.

Victoria P., the founder of Paws n' Noses, believes that these iPhone covers are not only a more environmentally friendly alternative to the traditional plastic personalized phone cases but are often cheaper than plastic options. "We want to show that eco-friendly solutions can be affordable".

These [eco-friendly personalized pet phone cases](#) will be available for sale starting on January 25th.
