

A Reliable CFD Company in the Palm of Your Hand

Imaginationeering Has Delivered Accurate CFD Solutions Around the Globe

Texas, Houston, Feb 13, 2021 ([Issuewire.com](https://www.issuewire.com)) - [Houston, Texas] Imaginationeering is a Houston based firm that has guided many inventors and companies alike through all the product design and development phases of conceptualization, designing, engineering, and prototyping. Today Imaginationeering highlights the significance of CFD in handling advanced simulations.

Imaginationeering offers a comprehensive suite of computational fluid dynamics (CFD) consulting services for clients that need agile turnarounds or lack the necessary in-house CFD expertise to handle advanced simulations.

When it comes to contriving the solution, they employ their acumen to find the quickest and economical way out. Their CFD Modeling services and [CFD engineering](#) services are focused on assuring you the best value and service.

What makes CFD experts at Imaginationeering stand out

- They are equipped with state-of-the-art computational infrastructure to carry out complex problems with ease.
- They have the ability to streamline the CFD modeling process for quick results.
- They have the expertise to tackle different problems in different domains and sectors with dexterity.

Imaginationeering excels at many types of Computational Fluid Dynamics simulations

Their CFD Capabilities includes:

- Steady and Transient Fluid Flows
- Compressible and Incompressible Fluid Flows

- Material Erosion due to Fluid Flow and Cavitation
- Fluid-Structure Interaction (FSI)
- Heat Transfer in Fluids/Solids
- Single and Multiphase Flows
- Laminar and Turbulent Flows

Counted among the prominent CFD companies in the USA, they have offered desired solutions with their stellar CFD engineering services that are focused on excellence. They are dedicated to offering CFD Engineering Services to warrant accurate and reliable outcomes.

[Francois Martin](#), CEO of Imaginationeering who has a BS and MS in Mechanical Engineering, decided to establish Imaginationeering, LLC in August 2014 with a focus on providing product development and engineering solutions for inventors, companies, and the general public. Francois has worked on multiple engineering projects (Design Engineer, Test Engineer, and Product Development Engineer) With 25 years of diversified experience in CFD Services that allows them to solve the most challenging mechanical engineering analysis and to provide their clients with accurate and reliable results. Francois says “Imaginationeering’s mission is to foster innovation in the community by providing everyone with means of transforming their ideas into a finished product”
