

Air-Care Releases Bio Air Scrubber

Nevada, Las Vegas, Feb 3, 2021 ([Issuewire.com](https://www.issuewire.com)) - Air-Care, Indoor Air Quality

Specialists www.air-care.com is proud to announce the launch of the Bio Air Scrubber. The Bio Air Scrubber is a powerful tool to filter out the harmful contaminants in any room. The 4-Stage process includes a 99.97% HEPA filter, 1st stage antimicrobial pre-filter, 2nd stage antimicrobial filter, and dual UVC Max 25 germicidal disinfection lights. All of this is encased in a portable platform allowing the unit to be easily rolled into any area.

Air-Care is a 42-year-old, Las Vegas-based manufacturer that specializes in indoor air quality products. *Richard Papaleo, CEO of Air-Care* “adding the Bio Air Scrubber to the product lineup made perfect sense. With the challenges that the world is facing with Covid 19, clean air is one of the key elements to helping us all win this battle.”

“The addition of the Bio Air Scrubber has allowed us the opportunity to offer solutions for the Clark County School District in addition to many other school districts around the country. Getting kids back into the classroom is essential but protecting both the students and the teachers is paramount. The Bio Air Scrubber is the perfect fit for any area where people gather, such as libraries, waiting rooms, restaurants, churches, etc.” said *Doug Cohen, Director of Business Development for Air-Care*.

“Air-Care has been an essential company during the Covid 19 pandemic,” said *Laura Consoli, VP of Marketing and Sales for Air-Care*. “We provide a line of EPA Registered products that help to promote cleaner indoor air, products include electrostatic air filters, UVC lights, and “N” listed chemicals that can be used with our single and dual tank foggers.”

About Air-Care

Air-Care was established in 1979 by Richard Papaleo. As one of the premier and innovative thinkers in this industry, Richard revolutionized air duct cleaning by creating portable, powerful, electric, and affordable equipment that could be used to efficiently and effectively clean both residential and commercial air systems. Air-Care has grown from a small startup to the international authority on air duct cleaning equipment and services. Air-Care runs worldwide operations from its state-of-the-art manufacturing facility, located in Las Vegas, Nevada.
