

Announcement- VISTA InfoSec expands its global footprint in the US

The graphic features a stylized illustration of a city skyline at sunset or sunrise, with palm trees in the foreground. The sun is a large, bright yellow circle. The city skyline is composed of various building silhouettes in shades of brown and orange. The palm trees are dark brown. The overall color palette is warm, dominated by yellows, oranges, and browns.

California, Calabasas, Feb 18, 2021 ([Issuewire.com](https://www.issuewire.com)) - We have got exciting things happening at VISTA InfoSec this month! We are today thrilled to announce that our company is going global with expanding its business footprints in the US. Currently, with our active presence in the US, Singapore, Middle East, and India, opportunities knocked at our doors at the perfect time.

With offices already in New York, we have now established our new office in California, US. Looking forward to building a strong relationship with customers in the US, we have opened up our Information Security Consulting services in the region and beyond. We are eager to provide our US-based customers exceptional services, commitment, and expertise that our current customers have been receiving from us.

VISTA InfoSec is an International [Cyber-Security Consulting Company](#) that solves real-world cybersecurity and compliance challenges. We strongly believe that building a local presence is the key to better understanding the cybersecurity needs of companies in the local region.

Not just technically, but also culturally, building a local presence will help us reach out to businesses easily and provide them our customized, top-notch solution. So, making this move to expanding our presence in the California US, we have today achieved another huge milestone.

With the announcement of expanding operations in the US, we are also delighted to announce having on-board with us **Vikas Dhanker** as our Regional Head - the USA, based in the US to oversee the operations in the region. Vikas is an Information Security Management professional holding about 2 decades of experience and expertise in the field of Information Security Risk Management, Project Management, and Cyber Security Compliance.

Registered as a Lead Auditor and Consultant in the region, Vikas has a wealth of knowledge and experience (18+ years) to offer those looking for expertise in Information Security Management and Compliance. Prior to this, he was working with –

- Certifications bodies like British Standard Institution, SGS USA, A-LIGN, and TUV SUD America as Lead Auditor
- ISO 27001 and SOC Consultant and trainer for several clients.

With Vikas's experience, relationship with locals, and expertise in the industry, we are now well-positioned to ramp our operations and serve our customers better. At present our cybersecurity solutions are well aligned with the current regional market trends, enabling us to increase operational efficiency and provide customized solutions to our clients in the US. With our local presence and robust affiliate network, we can now serve clients and meet their essential compliance obligations much more efficiently. **To learn more about VISTA InfoSec and its service offerings you can visit our website www.vistainfosec.com**
