

## C. Andon Guenther named one of GDUSA's People to Watch in 2021

**Colorado, Denver, Feb 10, 2021** ([Issuewire.com](https://www.issuewire.com)) - For Nearly Six Decades, GDUSA Has Started Each Year By Choosing A Group of [People to Watch](#) Who Embody The Spirit of the Creative Community.

“Individuals we have come to know and respect for a combination of talent, success, leadership, newsworthiness, influence, and community service. In a field so deep in talent and broad in numbers, this is clearly a subjective process. And this year was a particular challenge — as well as a particular honor for us — since so many of you were able to navigate an unprecedented and uncertain environment with grace, dignity, and intelligence.”

We would like to thank GDUSA for recognizing and including Andon among so many other incredible and influential innovators in design. This is an absolute honor for our entire team.
