While clubs are reheating in select locations in the US, artists are still serving up banging beats and wild wordplay for the crowd who venture out or who are quarantining. Hence the latest hit track from Cristal

Carrington titled Loving From The Back, which is becoming a strip and night club favorite.

Recently featured on Shade 45 XM, Loving From The Back, speaks about the fun that happens when guys and girls get together for a bit of twerking and the like. Fun and flirty, this jam is certain to get you bopping your head with its hard-hitting bass and southern-like charm resembling that of a night out at the infamous Magic City in its prime.

Carrington commands the beat to drop like a pro, while she chants how she plans to “put it in his mouth like candy”; making the track a decisive winner to DJs worldwide. Catchy and on par for home cuddlers or the club ballers, Loving From The Back, is a hit in the flesh.

Loving From The Back from Cristal Carrington, is available on all streaming platforms, including Apple Music, Soundcloud, Spotify and Pandora.
