

ESSNPS launches Engineering Strategic Sourcing Supply and Procurement Services

A dedicated one-stop-shop for professional equipment sourcing services from India for global enterprises.

Maharashtra, Pune, Feb 18, 2021 ([Issuewire.com](https://www.issuewire.com)) - Sourcing and procurement are central to successfully manage a business in general, manufacturing in particular. A successful sourcing strategy calls for a well-established supplier who can meet the requirements in terms of cost, quality, and deadlines. This is easier said than done. Now ESSNPS, a Pune, India brand owned by (an American multinational company) with decades of experience in the sourcing and procurement field, has launched a dedicated website for strategic engineering sourcing supply and procurement services to cater to global enterprises.

According to India Brand Equity Foundation, engineering contributes 25% to India's total exports in goods and is its largest foreign exchange earner. In FY20, a difficult year for trade globally, India's engineering exports stood at US\$ 75.97 billion, with the USA, China, and Singapore as the top three destinations. ESSNPS intends to capitalize on these resources to offer strategic sourcing solutions to a global clientele.

"The core team of ESSNPS has a combined experience of over 100 years in sourcing and procurement of engineering equipment for companies worldwide over the last two decades," says Tushar Maladkar – CEO & President of ESSNPS. "Leveraging this expertise, we are now offering a dedicated one-stop-shop for all sourcing and procurement services, brought together on a single platform with a user-friendly portal," he adds.

Based on the extensive experience of the core team, ESSNPS has compiled a database of vendors catering to different verticals of the engineering industry. These are high-quality products, tested and validated, with assured delivery schedules, at highly competitive prices.

According to Mr. Maladkar, ESSNPS will provide the following services:

- Engineering and Equipment Supply from India
- Developing Suppliers in India
- Detailed Supplier Assessment
- Assured Development Process, Ready for Procurement
- Packing to International Standards, and
- Logistics Management

The newly launched **ESSNPS** portal facilitates easy navigation for searching the required equipment sourcing solutions and components with a range of materials as per specifications and incoterms.
