

Eten Group Financing and Advisory Services Since 2004

Japan, Tokyo, Feb 10, 2021 ([IssueWire.com](https://www.issuewire.com)) - Eten Group combines market insight and intelligence with corporate finance knowledge to develop capital raising solutions for Eten Group clients. We originate, structure, and execute equity and equity-linked new issues such as initial public offerings (IPOs), secondary placements, rights issues, convertible bonds, exchangeable bonds, and certain types of pre-IPO financing.

We work with issuers located in the markets across Asia, the Middle East and Africa, Europe, and Latin America, and closely with our global equity research and equity sales & trading teams to provide distribution to institutional investors worldwide. Eten Group's strong balance sheet and broad financing product suite enables us to provide bespoke, capital-committed transactions at short notice, in complete confidentiality, and where necessary, in extremely large size. In addition, whether you are looking for equity financing against a new or existing stake in listed stocks or advice on equity risk management, allow the Eten Group's team to structure and manage bespoke solutions for you.
