

Farber Design Co branches out in new Faith Collection

Farmhouse style Faith Collection, designed by Catherine Farber, is expected to sell out.

Maryland, Frederick, Feb 10, 2021 ([Issuewire.com](https://www.issuewire.com)) - Farber Design Co is known for painted modern farmhouse style wood signs. The new Faith Collection will feature five new signs, plus some exciting new products. Farber Design Co has partnered with Printify, a print on demand company, to offer these designs on coffee mugs and pillows. Prices in this collection range from \$12 to \$50. Let your light shine with these religious-themed inspirational designs.

Hashtag blessed (#blessed) is the perfect Instagram-worthy family photo prop that can also be displayed around your home between photo sessions.

The Faith Hope Love mini sign bundle looks great on a tiered tray. Display this trio together or split them up to show your faith throughout your home.

Start your day with the Let Go and Let God coffee mug. The floral wreath design makes this unique cup the perfect inspiration, and reminder, to let God handle all that day's troubles.

These items and more will be available at farberdesignco.com starting February 12, 2021. Order your favorite inspirational piece, or pieces, from the Faith Collection before they sell out.

Catherine Farber has been designing and painting wood signs since 2017; first as My Time For Signs and more recently as Farber Design Co. These signs have been sold to and loved by customers all over the United States. This is her first collection to include print on demand products through Printify.
