Tulsa, Oklahoma for twenty-one years. She has touched the lives of thousands of women within northeastern Oklahoma. Having grown up in the small town of Stilwell, she has a strong identity with family and understands the importance of couples making the leap into parenthood. As the mother of four children, she realizes firsthand the challenges and blessings of starting a family.

At OB/GYN Specialists of Tulsa, she is very proud to have had the privilege of delivering two generations for some families. She is typically a laid-back physician, but occasionally she will give specific recommendations that need to be followed.

She later attended the University of Oklahoma College of Medicine and completed her residency in obstetrics and gynecology at Baylor College of Medicine in Houston, Texas. Obstetrics and Gynecology is the medical specialty that encompasses the two subspecialties of obstetrics and gynecology. An obstetrician-gynecologist, or OB-GYN, is a healthcare professional who specializes in female reproductive health.

Happily married, Dr. Gray and her husband enjoy listening to music, traveling, and keeping their four children on a level path.

Like most mothers, her interests include those of her family. Having two boys and two girls has allowed her to volunteer for almost every school activity possible. She constantly strives to make the community and school programs better; not only for her children but those of her peers as well.
