

Global Coin Collecting Market Research Report: 2021

Texas, Texas City, Feb 18, 2021 ([Issuewire.com](https://www.issuewire.com)) - According to the analysis of Market Insight Solutions, the global coin collecting market is projected to grow with a CAGR of 10.2% from 2021 to 2027. Coin Collecting market size is estimated to reach XX million in 2027. A growing number of coin shows, coin events, and numismatics educational institutes at the global level is driving the market growth. On the basis of region, North America and Europe account for major market share. The Asia Pacific is projected to be the fastest-growing region over the forecasted period. Moreover, rising consumer investment in premium vintage coin collection at the global level is driving rare coin market growth. In 2018, the U.S. coin collecting market size was valued at USD 3.6 billion and expected to grow with a higher CAGR in coming years. The coin collecting market is fragmented in nature due to the presence of a large number of professional collectors, private companies' investors, auction houses, and dealers.
