

HostMagi.Cloud Is Now A NON-Profit Hosting Provider

Popular Hosting service now giving all profits to charity

Missouri, Rolla, Feb 19, 2021 ([IssueWire.com](https://www.IssueWire.com)) - Host Magi, a popular web hosting company based in south east Missouri, has announced that it began operating as a non-profit company on February 2nd, 2021. All proceeds made from the companies sales will now be donated to charity.

For now, Host Magi will focus on COVID-19 relief by giving profits to individuals who have been negatively impacted by COVID-19.

"Whether you or a loved has had Covid, someone you know has died from the virus, or you have lost your home or job due to Covid," says Wolf Bishop, founder of Host Magi, "we want to help in any way we can"

Host Magi is a sister company of WP Top Hat, a rapidly growing managed WordPress hosting provider who will also begin donating a share of its profits to COVID-19 relief.

"Everyone has been impacted by this devastating pandemic in one way or another," says Wolf, "Some have lost their homes. Millions have lost their jobs. And sadly, millions have lost their lives or people they loved. We may not be able to help everyone, but we are going to try to help as many folks as we can".

Money raised will be distributed directly to those in need the most. Anyone who has been significantly impacted by this illness is encouraged to apply for relief on the HostMagi website by going to <https://hostmagi.cloud/covid/apply>. The application is very simple. Just provide your name, email and phone number and a short explanation of how Covid has impacted you and why you need the help.

Host Magi will review all applications and distribute funds on a monthly basis, with the first funds going out on March 1.

Want to help out without buying Host Magi services? Simply click the Donate button on <https://hostmagi.cloud/covid> and donate any amount you want.
