

LTT Global Announces "Be Future Ready" Global Campaign To Celebrate Digital Learning Day

Giving FREE access to STEM Career Learning Portal for all until 31 March 2021

Happy World Digital Learning Day

FREE ACCESS 25 FEB - 31 MAR 2021

PREPARING THE CHILDREN OF TODAY FOR THE JOBS OF TOMORROW

STEMCareer platform provides students, teachers and parents with World Class STEM education resources. It has Science, Technology, Engineering, Mathematics, Arts, Coding, Engineering, Robotics, General Knowledge, English Language, Critical Thinking and Creativity. We also have a STEM Career Channel that is on Future Jobs and Career Pathways which will greatly assist students to understand the future jobs and what the students need to do to pursue the chosen career.

Pre-school

Pre-school STEM activities will keep little ones busy and teach them the basics of STEM.

Primary

Amazing STEM lessons, activities and resources to make learning fun and easy.

Secondary

Inspiring students to enrich learning and help students relate STEM subjects to the wider world.

Malaysia, Kuala Lumpur, Feb 27, 2021 ([Issuewire.com](https://www.issuewire.com)) - LTT Global announced its “**Be Future Ready**,” a Global Campaign inline with Digital Learning Day’s theme this year; Together, We’re Better, Together, We’re Future Ready. LTT Global’s Campaign offers Students, Teachers, and Parents to enjoy free access until 31st March 2021 to LTT Global’s STEM Career learning platform.

We are living in unprecedented times. The current Covid-19 Pandemic has sped up the digital transformation for all sectors. Today, the Future of Education is being shaped by technologies and innovation emerging in education, which is changing the landscape of education.

In short, STEM Education is the foundation to prepare our students for the jobs of tomorrow, said Dr. Wemel Cumavoo, Co-Founder and CEO of LTT Global Communications Sdn Bhd. Dr. Wemel then quoted Richard Riley, the former US Secretary of Education, who said “We are currently preparing students for jobs that don’t yet exist, using technologies that haven’t been invented, in order to solve problems we don’t even know are problems yet.”

Our STEM Career platform provides Students, Teachers, and Parents with World-Class handpicked, curated STEM Education Resources, like Science, Technology, Engineering, Mathematics, Arts, Coding, Robotics, English Language, General Knowledge, Critical Thinking, and Creativity. In addition, we have a STEM Career Channel that is on Future Jobs and Career Pathways, which will greatly assist students to understand the future jobs and what the students need to do to pursue the chosen career.

We built our STEM Career platform based on multiliteracies pedagogy to successfully prepare 21st-century students for an unknown future. A platform like ours helps educators to get just on-time resources and make the teaching and learning of STEM fun, engaging, interesting, great, and cool.

STEM Education creates critical thinkers, maximizes science literacy, and enables the next generation of innovators. With STEM Education, we can make the world a better place. STEM underlies each and every one of the SDGs, from the use of digital technology for political engagement to meeting health and environmental challenges to economic empowerment, to modeling forms of international collaboration.

From February 25 to March 31, 2021, subscribe to the STEM Career learning platform for free.
