

One Kiss: The romantic side of Joey Restivo

One KISS

JOEY RESTIVO

Florida, Coral Springs, Feb 17, 2021 ([IssueWire.com](https://www.issuewire.com)) - [Joey "Bang" Restivo](#), an original founding member of the 90's mega group Linear ("Sending All My Love" and "Don't You Come Crying") is at it again with his solo project.

Joey released the official video of his new song "[One Kiss](#)" on February 11th, 2021, which was preceded by a contest where several hundred couples from around the world sent in their love stories and participated in a romantic dinner at their favorite restaurant, in which, as a result of the voting of people on social networks, the winners was Shweta Singhanian and her husband from India.

After the success of his two singles released last year; "[Take Our Time](#)" and "[Knocking on Heaven's Door](#)"; Joey delights us with "One Kiss"; his third production, where he demonstrates his versatility with a totally different style, full of love and romanticism.

"I believe you must put passion into everything you do; some days are harder than others, and that's when you gotta push even harder. If you have a goal/ Dream you must go after it with everything you've got", expressed Joey.

In the official video, Joey becomes a sort of modern-day cupid, with the mission of making love possible between a young couple going through differences; proving that sometimes one kiss is all it takes to change everything.

You can find "One Kiss" on all digital platforms and its official video on YouTube. Go follow and subscribe to Joey on his social networks to stay connected to all the great material he has to offer and new contests coming soon.
